

## **Directions to Villa Nora Once You Have Arrived at Douliana**

As you proceed up the hill from Kalyves (Καλύβες), you will pass thru a small village called Tsivaras (Τσιβαράς). Keep going straight and you will pass the Melissakis Olive Mill on your left. A little further there will be a shop bend in the road, and you will see what looks like a small auto lot on the left, turn left here.

There will be another sharp bend in the road, and when you see the sign for Douliana (Ντουλιανά) you will turn left again. Be very careful when turning here because you cannot see oncoming traffic.

As you enter the village please watch out for sheep and the old shepherd. You will pass a small cemetery on your right, then several houses on your left, and then you will see the village trash dumpsters.

Next you will see a sign for Natalia's Houses on your left, but slowly proceed straight.

Next you will see the Heliostasi restaurant on your right, but slowly proceed straight.

Next bear left at the town square past the coffee shop (on the left) and the mailboxes (on the right).

Proceed straight and watch out for the “town mayor” (a cat that likes to lay in the middle of the road).

Bear to the right.

Follow the narrow road straight. Watching out for parked cars and the farmers tractor.

Follow around to the left and continue straight.

You will see the sign for "Douliana Villas" on your left, turn left at the edge of that building by the utility pole.

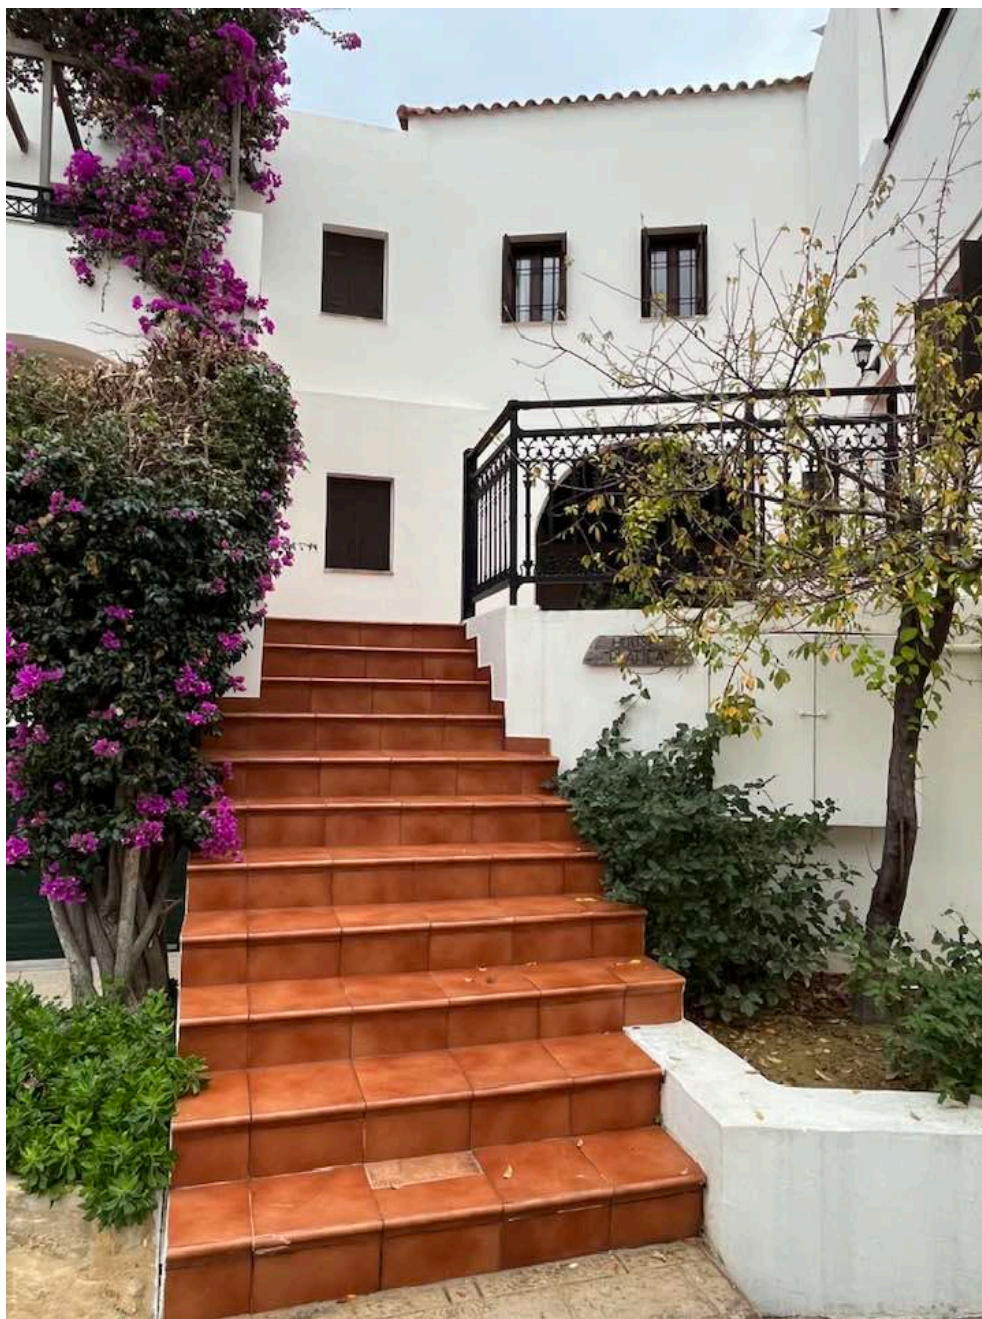

You will see the house immediately upon turning, and you may park inside of the garage on the right once you retrieve the garage door opener from the house.

Walk up the red steps to the right of the garage, and the entry door is on your immediate right at the top of the stairs.

Congratulations, you have arrived!
